

Preface

2015 3rd International Conference on Information Technology and Career Education will be held on December 24-25 at Seoul, the capital of Korea to further seek new problems and their underlying reasons of the information technology and employment education under the background of globalization and marketization in view of the success of the former two sessions. ICITCE 2015 will comprehensively develop the information technology and employment education based on the former two secessions. And this meeting is also a platform for domestic or abroad experts, professors, scholars and engineers in related fields to demonstrate their research results and helps them establish connection in career or research and find global partners in the future.

As previous two conferences, ICITCE 2013 and ICITCE 2014 have been concluded with a perfect ending. Participants discussed about the information technology and employment education and acquired preliminary achievements. The excellent papers of two meetings are already edited and published through the internationally cooperative platform SHS Web of Conferences and the proceeding has been successfully indexed by CPCI and CNKI eventually.

As usual, only unpublished research paper can be accepted by ICITCE 2015. Paper which is submitted will be examined by conference's technical committee, and all the accepted paper will be applied for DOI and published in ICITCE 2015 conference proceedings. Besides, these papers can be also viewed online through the online publishing platform SHS Web of Conferences. We will also send the index to CPCI (which is originally ISTP) and CNKI for coverage. The book is divided into two main topics:

- Education and teaching
- Economy and technology

Considerable attention is also paid to information technology, industry, tourism and arts. The book will be significant for professionals and academics in social science and humanistic education.
