

Preface

This collection of papers was first presented in the World Engineering, Science and Technology Congress 2018 (ESTCON 2018) where the International Conference on Humanities and Social Sciences 2018 (ICHSS 2018) was held in Kuala Lumpur Convention Centre, Malaysia, from 13th – 14th August 2018.

Representing work conducted by researchers located in Australia, Indonesia, Japan, South Korea, Malaysia and United Kingdom, the papers in this collection raise questions related to the following themes:

- 1) ASEAN Community
- 2) Communication and Media Studies
- 3) Language Use and Concerns
- 4) Religions, Science and Morality
- 5) Teaching and Learning

The research represented in this collection attempts to consider complex sociological issues from the theoretical, historical, empirical and philosophical perspectives. Because these issues affect and shape human lived experience, the papers in this collection contribute towards extending important conversations that are current in this millennium. The aim of this collection is for readers to carry on the conversations.

This collection is made possible with the full support and generosity of Universiti Teknologi PETRONAS, Malaysia, who was the main organizer of ESTCON 2018 and ICHSS 2018. Special acknowledgement must also be given to the many reviewers from Australia, Belgium, Malaysia and Singapore who provided useful and timely feedback to the authors of the papers in adherence to the blind review process.

It is hoped that the International Conference on Humanities and Social Sciences 2018 (ICHSS 2018) will be a springboard to further research work that continues to confront issues in Social Sciences and Humanities.

Editor,

Dr. *Su Li* CHONG
