

Preface

The 2022 International Conference on Information Technology in Education and Management Engineering (ITEME2022), which was held in Shanghai (China) from March 29 to 30, was a great success with the support from excellent scholars and researchers. As an opportunity and platform for research communication and support, ITEME2022 attracted participants of different levels including professors, doctors and graduates from universities and institutes. They contributed their latest research work as support and received professional advice from ITEME2022 invited reviewers. Together they made the ITEME2022 possible.

ITEME2022 was held virtually with technical support from professional team. Participants were provided help and instruction before the conference and the opening and advance was successful and fruitful; invited speakers delivered speeches and shared their ideas on modern education and management; authors were provided opportunity to speak, too. As a further step in our pursuit to make contribution for the advancement education and management science, we made great efforts on the publication of the papers presented at ITEME2022. We believe the readers will be satisfied with the researches presented to them.

Last but not least, I would like to thank all the members of ITEME2022 and I look forward to work with all again.
