

Preface

It is our great pleasure to have you at the 2022 International Conference on Public Service, Economic Management and Sustainable Development (PESD 2022), which was held in Wuhan, China from November 11-13, 2022 via virtual format. It is an international forum for academic communications between experts and scholars in the fields of public service, economic management and sustainable development.

The main objective of PESD 2022 is to provide a platform to deliberate latest developments and future directions in Public Service, Economic Management and Sustainable Development. The conference provided opportunities for the delegates to exchange new ideas and application experiences face to face, established business or research relations for all participants to find global partners for future collaboration.

There are more than 100 participants from all over the world. The conference agenda covered three parts, including a keynote speech delivered by five sophisticated professors from different countries and regions. Among them, Prof. Thomas Hanne from University of Applied Sciences and Arts Northwestern Switzerland, Switzerland made a speech on Using Artificial Intelligence and Text Mining for Business Innovation. He reflected on the business innovation supported by developing software solutions based on text mining, natural language processing, and artificial intelligence techniques to meet the business needs communicated by Swiss companies, and discussed four related projects from different industries and with different challenges to identify common procedures and methodologies that can be used. It provided a great opportunity for the participants to get knowledge and different insights on related fields from the speech and the discussion followed by.

We have received tremendous submissions from all over China and abroad. Through a rigorous peer-review process, all submissions were performed double blind review to check their quality of content, level of innovation, significance, originality and legibility. Based on the expertise review comments, many excellent papers stood out and were accepted, and the corresponding authors were invited to submit their papers for final publication. The accepted papers covered topics on: Digitizing Public Safety, Data Privacy Protection, Economic Development, Circular Economy, Green Life, etc.

We would like to express our gratitude to the organizers, keynote speakers and all the participants of PESD 2022, for their fruitful work and excellent contribution to the success of the conference. We are thankful to all the reviewers for providing constructive criticisms, stimulated comments and suggestions to the authors. Also, our heartfelt thanks and appreciation go to the editors and other members of SHS Web of Conferences, for their help and kind cooperation during the preparation of the proceedings.

The Committee of PESD 2022

Committee member
