Remark from the President of Indonesian Ergonomics Society
Perhimpunan Ergonomi Indonesia (PEI)

Your Excellency The Minister of Manpower Republic of Indonesia Dr. Hj. Ida Fauziyah, M.Si.; ILO Country Director for Indonesia and Timor-Leste Madam Michiko Miyamoto; the President of International Ergonomics Association Prof. José Erlando Gomes; PEI’s Partners: Rector of Udayana University: Prof. Dr. Ir. I Nyoman Gde Antara, M.Eng.IPU; Director of Politeknik Negeri Bali: Bapak I Nyoman Abdi, SE., MeCom; Rector of University of Bali International: Prof. Dr. dr. I Made Bakta, Sp.PD. (KHOM); Dear my colleagues, the committee and all members of PEI and all participants of the 2nd ICESH and Ergo Camp 2023.

Welcome to Bali – a wonderful Indonesia.

The past few decades have been witnessed occupational accidents and diseases in all sectors of industries, not only in the developing countries, but also in large countries such as the USA and the European Union. Trends in work-related accidents and illnesses are in line with industrial reformation 1.0 to 4.0, and the attention tends to focus more on work accidents compared to work-related illnesses, but surprisingly, ILO (2015) reported that the number of fatal occupational diseases much higher, it achieved about 86%, while the fatal accident was 14%. The most diseases that need the highest health cost compensation was Musculoskeletal Disorders (MSDs) which is expressed by most workers throughout the world, and continues to increase, especially in the industrial era 4.0. Workers are required to carry out their tasks quickly, precisely, accurately, with high pressure and competitiveness. In the 4.0 era, digitalization is carried out in various fields. It provides more freedom for workers to carry out their tasks anywhere. As a result, workers carry out their tasks with various awkward working posture that leads the workers to begin to experience greater MSDs. It happened because in designing the work systems are more focused on technological and economic considerations, and less awareness on human aspects. This is contrary to the Ergonomics concept which places humans as the first consideration in developing technology or systems and the end result is to increase the level of human health and welfare.

The 2nd International Conference on Ergonomics and Occupational Safety and Health (ICESH) and the 7th Ergo Camp aims to advance both by providing a multi-stakeholders platform for concerted action, research, and sharing best practices under the theme “Applied Ergonomics for Nature and Humanity”.

I would like to welcome all of you to the 2nd ICESH and the 7th Ergo Camp 2023 and express my gratitude for the expertise you bring to our gathering in this conference. You are truly our greatest asset to this conference and I encourage you to stay engaged, keep us proactive, and help the world to shape the future of safe, healthy, efficient, comfortable, and productive work conditions.

Thank you and have a nice conference and enjoy the beautiful of Bali
Sincerely yours,

Prof. Dr. Ir. Lilik Sudiajeng, M.Erg
President of Indonesian Ergonomics Society
WELCOME MESSAGE
from the Conference Chair of The 2nd ICESH & the 7th Ergo-Camp

Hereby, I welcome industry professionals, academics, researchers, and scientists in the field of ergonomics, to The 2nd International Conference on Ergonomics, Safety, and Health and 7th ErgoCamp (The 2nd ICESH & 7th ErgoCamp) 2023.

In order to strengthen efforts to build a healthy work culture in Indonesia and disseminate research results in the field of occupational health, the Indonesian Ergonomics Association (PEI) in collaboration with the Indonesian Ministry of Manpower, the International Labor Organization (ILO) and the International Ergonomics Association (IEA) will hold The 2nd International Conference on Ergonomics, Safety, and Health and 7th ErgoCamp (The 2nd ICESH & 7th ErgoCamp) 2023 on 12 to 14 October 2023 in Bali. It is hoped that this activity can become a discussion forum, exchange of ideas and research results and the latest solutions for researchers and experts in the fields of ergonomics and occupational health, information systems, industrial engineering and others. This conference has the theme "Applied Ergonomics for Nature and Humanity".

The conference is expected to strengthen collaboration and provide a forum for industry professionals, academics, researchers and scientists to discuss and exchange research results, innovative ideas and experiences in all aspects of ergonomics and technology, as well as to identify emerging research topics, determine future direction to survive and gain benefits in this era.

This international seminar activity is combined with the Ergonomics students camp and paper challenge (ergo camp) which is an annual activity for all students throughout Indonesia, especially in the field of Ergonomics. This activity is also an opportunity to stay in touch and discuss with students from various universities in Indonesia. This ergocamp activity was held in Bali on 12 – 14 October 2023 at the Unud postgraduate building, Sudirman, Denpasar.

The number of participants consists of Paper icesh 111, Paper ergocamp 28; Icesh 102 people attended, Ergocamp 67 people; Workshop with 50 participants from the Ministry of Manpower; Keynote speakers: 5 people from within and outside the country.

Lastly, I would like to bring to your attention Dr. Don Norman: “Ergonomics is the science of designing products and systems to suit humans, not the other way around.”

This quote reminds us that ergonomics is not just about avoiding discomfort and injury. It is also about creating workplaces and products designed for the human body and its capabilities. If we design things with ergonomics in mind, we can create a more comfortable, efficient, and productive work environment for everyone.

Once again thank you for participating in this activity. We hope that the knowledge and insight we all gain in this meeting can be applied for positive progress in the world.

Dr. Ni Made Swasti Wulanyani, S.Psi., M.Erg, Psikolog
Chairman of The 2nd (ICESH) & the 7th Ergo-Camp
COMMITTEES

STEERING COMMITTEE

Dr. dr. Lientje Setyawati Kusumaharta Maurits, M.S., Sp.OK.
Prof. Dr. dr. I Putu Gede Adiatmika, M.Kes.
Prof. Dr. Ir. Lilik Sudiajeng, M.Erg
Prof. Ir. Hardianto Iridiastadi, MSIE., Ph.D., CPE.
Prof. Dr. Ir. Heru Prastawa, DEA.
Drs. Muhammad Idham, MKK
I Ketut Sudarsana, ST., Ph.D
Prof. Dr. Ir. Hari Purnama, MT.Prof. Yassierli, Ph.D., CPE.

ORGANIZING COMMITTEE

General Chair : Dr. Ni Made Swasti Wulanyani, S.Psi., M.Erg, Psikolog
Vice Chair – 1 : Dr. Maptuha
Vice Chair – 2 : Dr. Ir. I Ketut Gde Juli Suarbawa, M.Erg.
Vice Chair – 3 : Dr. A.A.I.A. Sri Komaladewi, ST., MT
Vice Chair – 4 : Dr. Ir. I Gusti Ngurah Priambadi, MT
Vice Chair – 5 : Dr. Ir. I Wayan Parwata, MT., IPU. ASEAN Eng
TECHNICAL COMMITTEE

1. Secretariat:
Dr. Ns. Ni Ketut Guru Prapti, S.Kep., MNS
Dr. dr. I Made Krisna Dinata, M.Erg.
Putu Diana Wulandari, M.Psi., Psikolog
Dr. Ida Ayu Anom Arsani, S.Si., M.Pd.
Dewi Hardiningtyas, S.T., M.T., M.B.A.
Dr. drg. Putu Lestari Sudirman, M.Biomed

2. Treasurer:
Dr. dr. Indira Vidiari Juhanna, M.Fis
Dyah Santhi Dewi, S.T., M.Eng.Sc., Ph.D.
Anny Maryani, S.T., M.T.

3. Public Relation:
Ardiyanto, Ph.D., AEP.
Ni Luh Putu Lilis Sinta Setiawati, ST., MT
Dr. Ir. Ida Bagus Alit Swamardika, M.Erg., IPM.
Etika Vidyarini, S.Ds., M.Ds., Ph.D.

4. International Conference on Ergonomics, Safety, and Health (ICESH) Program
Dr. M. Yusuf, S.Si., M.Erg.
Made Diah Lestari. S.Psi. M.Psi. PhD
Dr. Johanna Renny Octavia Hariandja, S.T., M.Sc., P.D.Eng.

**Academic**

Dr. dr. Susy Purnawati, MKK.

Ni Putu Ardiyanti, S.Pd., M.Erg

Prof. Ari Widyanti, S.T., M.T., Ph.D.

Dr.Eng. Titis Wijayanto, S.T., M.Des.

**Technical support**

Dr. Ir. Jacob M. Ratu, M.Kes

Dr. I Ketut Sutapa, ST., MT.

**5. Equipment, Tools**

Dr. Ir. I Gede Santosa, M.Erg.

Dr. Gede Suhartana

Dr Yoga Parwata

**6. Ergo-camp**

Ns. I Kadek Saputra, S.Kep., M.Erg

Dr.Eng. Listiani Nurul Huda, M.T., IPM.

Desak Ayu Sista Dewi, STI., M.Eng.

Made Cyntia Utami, ST., MT
Editor

1. Dr.dr. I Made Krisna Dinata, M.Erg
2. Dr. M. Yusuf, S.Si., M.Erg
3. Dr. dr Susy Purnawati, MKK

Scientific reviewer

1. Prof. José Orlando Gomes, Ph.D., CPE. President of International Ergonomics Association, University of Rio de Janeiro, Brazil
2. Dr. Shengli Niu ILO (Switzerland, Europe), Senior Specialist on OSH Ergonomics & MSDs
3. Assoc. Prof. Bernard Martin, Ph.D University of Michigan, USA Human Factors & Transportation, Industrial and Operations Engineerin
4. Prof. Debora Turnbull University of Adelaide, Australia Ergonomics for Disability
5. Dr. A.A.I.A. Sri Komaladewi, ST., MT (Udayana University, Indonesia)
6. Ni Putu Ardiyanti, S.Pd., M.Erg (Triatma Mulya University, Indonesia)
7. Dr. Ir. I G.N Priambadi, MT (Udayana University, Indonesia)
8. Made Diah Lestari, S.Psi., M.Psi., Ph.D (Udayana University, Indonesia)
9. Dr. Ir. I Ketut Gede Juli Suarbawa, M.Erg (Politeknik Negeri Bali, Indonesia)
10. Dr. Ir. Jacob M. Ratu, M.Kes (Nusa Cendana University, Indonesia)
11. Dr. Ir. I Gede Santosa, M.Erg (Politeknik Negeri Bali, Indonesia)
12. Dr. Ida Ayu Anom Arsani, S.Si., M.Pd. (Politeknik Negeri Bali, Indonesia)
